SPECIAL PRAYER

Services Requested of Ministers to Aid in the Battle Against Consumption

Special prayer will be offered in Churches in various parts of the state Thursday night for victory over consumption, the chief of the "Great Captains of Death."

The proposal to that effect made Sunday night in the Southern Presbyterian Church of Frankfort has received hearty endorsements. Pastors in Frankfort and Lexington will bring up Tuberculosis as a subject demanding the highest wisdom that it may be successfully combated. Pastors and people will reckon the needless waste of 6,438 deaths in one year, placing Kentucky third from the top of high mortality from this cause of death.

The Ministerial Association of Louisville passed a special resolution urging the Churches of that city and state to offer prayer that wisdom and knowledge be given to those public spirited men and women throughout the state who have determined to change Kentucky's dark record.

It is hoped that Maysville Pastors will also raise their voices and aid the good work.

Darnall, was largely connected in Fleming county, and at the wedding there were present sixty one of her first cousins—all living in Fleming county.

NEWS OF LINENS.

It's a misfortune that dimensions and prices are so uninteresting until you SEE what they represent. Otherwise the subjoined details would crowd our store for they include the trinity women adore in merchandise—quality, beauty, low price.

50c Yard Bleached and unbleached Irish linen 68 in. wide. Large range of patterns.

\$1.50 Yard Exquisite patterns in satisfying variety. 72 in. wide.

75c Yard Good enough for any occasion, sturdy enough for everyday wear.

\$1.75 Yard Smooth as satin. Laundered with a gloss that throws out the pattern in strong relief.

89c Yard Closely woven and heavy. An excellent Irish weave. Full 72 in. wide.

\$2 Yard For "dress up" occasions. Handsome enough to give a banquet air to a dinner of herbs.

\$1 Yard Satin finish, grass bleached. No chemical bleaching ever weakened this sturdy linen.

\$2.50 Yard Superb damasks that measure full 2 1/2 yards wide, in exquisite floral and geometrical patterns.

\$1.25 Yard The pattern stands out boldly in high luster on a dull finished background. Very effective.

From here the price ascension gradually reaches \$3, which is our quality limit.

A GREAT number of Kentuckians seem to be suffering from tobaccophobia, whatever that may be.

THEY have found a 20,000-year-old mastodon in Montana. Finders should be careful or the Democrats may seize it as Vice-Presidential timber.—New York Herald.

It may sound fine to condemn the use of money in politics, but the Democratic National Convention at Denver was knocked down to the highest bidder for \$100,000.

THE legislative grind at Frankfort seems to be completely blocked by politics, tobacco and whisky. These three things have been the very bane of Kentucky's existence.

DEMOCRATIC county and city officials appeal to Governor WILLSON for troops for protection against the night riders and then "the organs" and machine politicians abuse the Governor for using the militia. Funny people, these Democrats.—Sun-Sentinel.

DURING the last two calendar years we have imported gold to the amount of \$300,000,000. During the same time we have exported gold to the amount of about \$100,000,000, leaving the net imports at about \$200,000,000. Here at least is a very substantial part of our balance of trade accounted for, without any guess-work whatever.

EVERYTHING is favorable for the beautiful Ohio river to make her regular February exhibition of herself and slop over a few times. It requires more than a "nine-foot stage" for the Ohio to perform her biggest stunt upon. The Ohio river, though, has behaved very well during the past year, and if it does as well this year everybody will be happy.

RAILROAD construction in the United States in 1907 was nearly as heavy as in 1906. The total number of miles of new track laid was 5,730, of which 422 miles were in Louisiana, 341 in Florida, 385 in South Dakota, 814 in Texas and 311 in Washington. The greater part was laid before the "panic" occurred. The railroads consumed 8,000,000 tons of steel in 1907, including 2,000,000 tons for steel cars. But there has been a heavy falling off for locomotives and cars, at least 75% as compared with 1906.

A LEAP YEAR FLUKE.
Louisville Herald.

The leap year girl took his little hand in hers. Such a white, dainty little fin it was (his'n.)

The man's eyes were downcast. A fluttering at his heart told him something was about to happen.

"Will you marry me?" The leap year girl's accents were inexpressibly tender. Breathlessly she waited for the fateful answer.

"N-n-no!"

The word was a whisper. It was scarcely audible. The girl recoiled, stunned.

"Why?" she gasped, a look of pain passing over her features, mutilating them slightly.

A blush suffused the man's face. But there was nothing to it—he had to tell her.

"Why wife won't let me."

WEAK FROM SUFFERING

UNABLE TO PERFORM WORK

Discouraged After Spending Money Without Benefit—Found Help at Last.

Mr. Earl McCoy, living at 1506 So. Branson Street, Marion, Ind., has passed through an experience that is being duplicated every day in every town and city of any consequence in the United States. It furnishes abundant proof of the correctness of L. T. Cooper's theory in regard to the degeneracy of the human stomach, and shows conclusively the merit possessed by his New Discovery medicine to restore the weakened system to full strength and vigor.

Mr. McCoy says: "For a long time I have been a sufferer from stomach trouble. I was unable to retain any food, and became so weak and run down that I was compelled to stop work. My system was nearly a wreck, and I had tried so many remedies and spent so much money without deriving any benefit, that I became dis-

couraged and gave up hope of ever being well again.

"I heard a great deal of Mr. Cooper's theory and medicine, and after much hesitation decided to try it. The result was a pleasant surprise. Before I had taken half of the first bottle I was able to retain all food eaten, and my strength began to return. I have taken six or seven bottles, and am feeling fine. I eat and sleep well, do not cough at night, and am able to perform a hard day's work. I can cheerfully recommend Cooper's New Discovery, for it has done wonders for me."

The Cooper remedies are meeting with remarkable success wherever they are introduced. They are without a rival in toning up a weakened and run-down system. We sell them.—T. J. Chenoweth.

OH! SLUSH

Snow, Rain, Sleet, Wind and a Little Bit of Everything Disagreeable, Yesterday

Tuesday night about 9 o'clock snow began falling in gentle flakes and as the night wore on it increased in volume and velocity till shortly before dawn of day when it shifted from the beautiful to a drizzling rain and the combination left things in a miserable condition.

Judge of the consternation and amazement of the early riser as he stepped from his door to seek his office, store or workshop, as the case might be. Snow and slush covered the pavements and streets to a depth of three inches and raining to beat the band. To add to his disappointment and discomfort the street cars were unable to run owing to the condition of the track and frozen snow on the wires, hence he was compelled to foot it through the slush and snow to his place of business.

The day was fierce, gloomy and miserable throughout, altogether unfit to send children to school, yet they trudged through it and reported on time all the same. It is to be hoped no evil effects will follow from it. The Board of Education ought to have it understood that on such a day as yesterday there would be no session of the Public Schools.

It was a good day for gum shoes and boots, and merchants in that line did a land office business.

It would have been a gracious act if the Street Commissioner had been thoughtful enough to have at least cleaned the crossings of snow and dirt and thereby relieved a distressed people of a part of their discomfitures in not having to wade across the street.

Another suggestion: Council should by all means pass an ordinance with a penalty attached compelling residents on streets to clean the snow off the sidewalk in front of their premises, inside of a reasonable time.

Everybody take notice and see what the groundhog knows about the weather—or six weeks more winter. There are six weeks more winter anyhow before spring sets in and we generally have several weeks peewee winter after that. When the writer was a boy we often heard old people say the 19th of February was groundhog day. That where the sun shined on said day the snow would blow before the last of March and that seems more reasonable than the 2d day to rule the balance of win-

ter. However, we take no stock in the groundhog, the geese or the crows as forerunners of good or bad weather.
